CONVAISE

COMPANY DESCRIPTION

The flagship product, **Convaise Studio**, is a no-code software platform that enables administrations to create chat assistants that map and simplify application processes, consultations and citizen services. Instead of using paper forms to communicate with citizens, an AI-based assistant supports the citizen through the process.

CONCR

CONCR

COMPANY DESCRIPTION

More efficiency and safety through concrete monitoring with Concr. Concr sensors, which are embedded in the concrete during casting, monitor the temperature development and maturing process of the concrete and make unerring predictions about its compressive strength and further processing. The technology helps to make the right decisions, saves costs and reduces waste.
