

FINTECH HUB FRANKFURT

Frankfurt am Main is an international financial center boasting a high concentration of outstanding universities. The FinTech Digital Hub Frankfurt builds upon these locally founded strengths. It is a cross-industry innovation platform that was created to unite players from the financial sector and the entrepreneurial scene. They work together on new solutions for the financial market, such as security products and

infrastructures, thereby developing a new digital understanding of different technology trends. Innovative entrepreneurial ideas are developed into market-ready products in the environment of scientific institutions and partnerships with businesses. Mentoring and educational components, pitch events, and workshops are part of the program and create the framework.

Top Programs & Opportunities

1. Coworking & Event Space

Spanning two floors, we offer competitively priced desk space and private offices for start-ups and corporate innovation labs. Our open spaces can also be rented for live and virtually streamed events from 5 to 120 people.

Target group: Start-ups, corporates

2. For Start-ups

Founders in various stages of development can participate in programs, workshops, hackathons, or matching events often built with our partners. Our goal is to support the growth of start-ups and talent in such areas as business model development, fundraising, team formation, and market fit.

Target group: Talents, start-ups, entrepreneurs

3. For Corporates

In addition to innovation space at TechQuartier, we also design events and programs that bring together start-ups and established businesses to find solutions in areas such as ESG, open finance, AgTech, data analytics, and artificial intelligence.

Target group: SMEs, corporates, government
