

ARTIFICIAL INTELLIGENCE HUB KARLSRUHE

Federal Ministry
for Economic Affairs
and Climate Action

de:hub
digital ecosystems

Karlsruhe is Germany's most important location for the development and application of artificial intelligence. The Digital Hub Karlsruhe builds upon the region's unique set of competencies in the field of software development and acts as a driving force for developments in this area, and as such makes a valuable contribution to Germany's digitization and

competitiveness. The Hub today relies on the joint research activities of established players in collaboration with ambitious entrepreneurs. Focusing on industries such as energy, mobility, and production, the Hub connects AI experts and enables small and medium-sized companies to implement AI-driven solutions.

Top Programs & Opportunities

1. KI Readiness Check & KI Workshops

Kickstarting successful AI projects, the Hub offers an AI readiness check, which helps companies to identify their AI potential. In addition, the Hub offers AI workshops to develop AI use cases or an AI strategy.

Target group: SMEs

2. Virtual AI Showroom

What is AI and what use cases have already been implemented into reality? This shows the 3D-based virtual AI showroom, which introduces the basic concepts of AI and presents several use cases from the partners of the Hub to make AI tangible for SMEs and the general public, and to inspire the development of new AI solutions.

Target group: SMEs, start-ups, AI experts, general public

3. AI Education Academy

What does artificial intelligence actually mean? And how can AI be used in companies? The basic courses offered by the AI Education Academy support companies in the first steps of the AI life cycle.

Target group: SMEs
