

MEDIATECH HUB POTSDAM

Potsdam enjoys worldwide renown as a location for the media and film industry. Here, film studios, radio and television broadcasters, media companies, and science are in close physical proximity, while the MediaTech Hub Potsdam supports regional entrepreneurship and connects established companies with founders and start-ups. In the Media City of Babelsberg, these players work together to develop new digital systems for

data processing, media production, and business solutions. The focal points of the work such as future media technologies, voice and image recognition, XR, and 3D human body reconstruction show that these innovations are not only of great importance to the classic media and entertainment industry but also to other industries and branches.

Top Programs & Opportunities

1. MTH Accelerator

The MTH Accelerator is the sparring partner for early-stage start-up teams whose ideas and solutions are based on media technologies such as virtual reality, immersive technologies, artificial intelligence, and voice, cloud, blockchain, or general digital technologies. The goal is to offer young start-up teams an individually tailored program.

Target group: Start-ups

2. MTH Conference

The MTH Conference is the only B2B event on media technologies referring to every video- or audio-related technology and business in a digital world. The goal is to explore the potential, practices, and challenges of MediaTech in the context of business and entertainment.

Target group: Start-ups, corporates, research institutions, educational institutions

3. MTH Space

The MediaTech Hub Space offers affordable office space for media technology start-ups at Potsdam-Babelsberg. Selected start-ups are given a space, will become part of the MediaTech Hub, and gain valuable access to networks from the media and digital world, research and teaching, and the start-up scene.

Target group: Start-ups
